How long will the dog be left alone on a regular basis?

Keeping an animal can be costly with good quality food, pet insurance, vaccinations, flea and worm treatments, vet bills and possible kennel fees while you are on holiday. Are you confident you can afford these costs?

And finally:

Do you have any big life events coming up, for instance: a holiday away; moving house; starting a family?

We realise this is a very personal question but it is very relevant to taking on a new pet. With the best will in the world our experience is that sometimes people want a pet so badly they forget how much work settling a new member of the family in can be, and therefore how important it is to have several weeks/months of no big changes.
